LMU KLINIKUM
Institute of Medical Education and CIH[LMU] Center for International Health

International Academic Teacher Training Course for Health Professions - ONLINE

From 29th of January to 16th of July 2027

Application Deadline: 1st of December 2026

Professionalisation of medical education, professional development and capacity building for health professions are key factors for a sustainable development of health care systems worldwide. The International Academic Teacher Training Course for Health Professions (ATTC) in Munich is part of Continuous Professional Development and a mandatory faculty development program of the medical faculty of LMU Munich. It is offered by CIH[LMU] and the Institute of Medical Education and is embedded in a strong network with international partner institutions.

Target Group
The Academic Teacher Training Course (ATTC) is designed for educators in health professions and related fields, who wish to strengthen their teaching skills and enhance their pedagogical practice.

Teaching Methods
The course is competency-oriented. It initiates an active and participatory learning process by using constructive and interactive learning methods. The development of relevant competencies is supported by synchronous, online small group discussions, group work, independent study, individual and group presentations, and expert sessions.

Objectives
Participants will…

- structure their own teaching and assessing in large and small classes
- develop a curriculum from learning objectives to assessment methods and teaching and learning activities for their own teaching practice at their home institution
- give and receive feedback in their daily work, practice intercultural communication and collaborations, share professional teaching expertise across different health professions
- use online facilitation tools and techniques routinely

Participants should have ...

- English language proficiency at C1 level
- Previous experience teaching students in health professions
- A work environment in which to practice newly acquired teaching skills during the transfer phase
- A stable, high-bandwidth internet connection
- A computer with a camera, microphone, and speakers or headset (participation by mobile phone is strongly discouraged)

Duration/ Certification

- Kick-off meeting, Friday, 29.01.2027, 08:30 to 14:30 CET; self-directed pre-course assignments (reading and writing, approximately 15 to 20 hours); five days synchronous, facilitated distance course (Monday 08.03.2027 to Friday 12.03.2027, attendance is full-time); transfer phase including post-course assignments (writing, teaching students and receiving feedback from a peer, observing and giving feedback to a peer); and Symposium on Friday, 16.07.2027, 09:00 to 13:00 CET
- Participants receive the final Certificate of competence upon successful completion of the online course, the transfer phase and Symposium. Participants of the LMU can opt for a Grundstufe Zertifikat Medizindidaktik.

Course Fees
The costs for employees of the University of Munich and the Medical Faculty of the Ludwig-Maximilians University Munich will be covered. For external participants, a fee will be charged.

- **Registration fee: € 50**
- **Tuition fee: € 900** (The tuition fee includes online facilitation only)

Scholarships
A limited number of scholarships for the tuition fee only is available for participants from CIH main cooperation partners (see: Partners | Center for International Health (CIH[LMU])). Scholarships may be awarded based on the application.

Voices of former participants:

"This well-structured online learning experience allowed me to have a wonderful time practicing microteaching, following Gagne's 9 Events of Instruction, with a group of cross-cultural participants."
Dr. Soksereivotanak Ouk
Medical Laboratory Scientist
Teaching in Hematology and Microbiology Phnom Penh, Cambodia

"The ATTC has boosted my confidence as a teacher because now I am equipped with a lot of knowledge regarding multiple aspects of teaching. I am confident to identify myself as a teacher. "
Dr. Sweta Giri from Thimphu, Bhutan Emergency Physician, Flight Doctor, BEAR Team, Jigme Dorji Wangchuck National Referral Hospital, Bhutan

"I didn't enter this course with many expectations as many didactics- and teaching courses tend to be "lengthy" without providing many beneficial or new knowledge - ATTC is the opposite it was entertaining, and instructive at the same time and I am convinced it will affect my teaching positively in the future."
Dr. Michaela Rippl, Specialist in Internal Medicine LMU Hospital- Munich, Germany
